

Review of the European Higher Education Fair New Delhi 2008

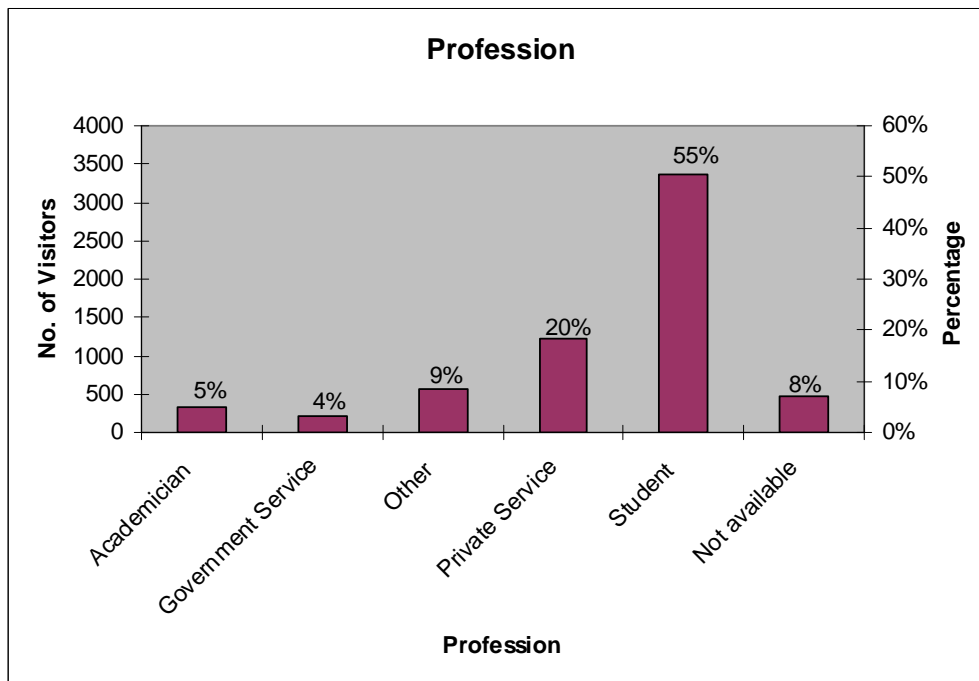

Profile of visitors

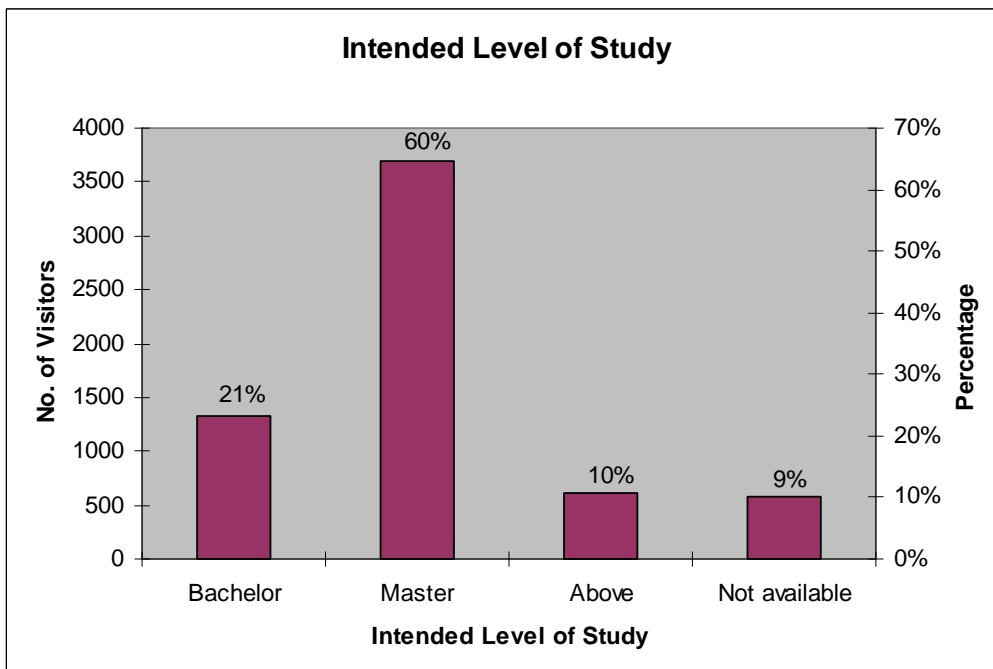

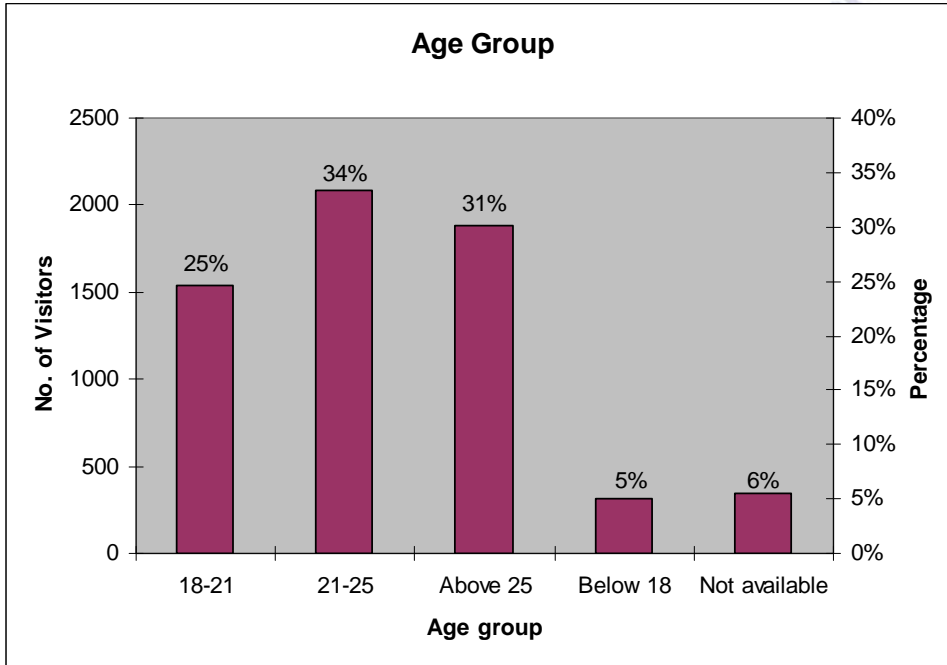

More than 6,000 Indian students visited the European Higher Education Fair (EHEF) in New Delhi in November 2008.

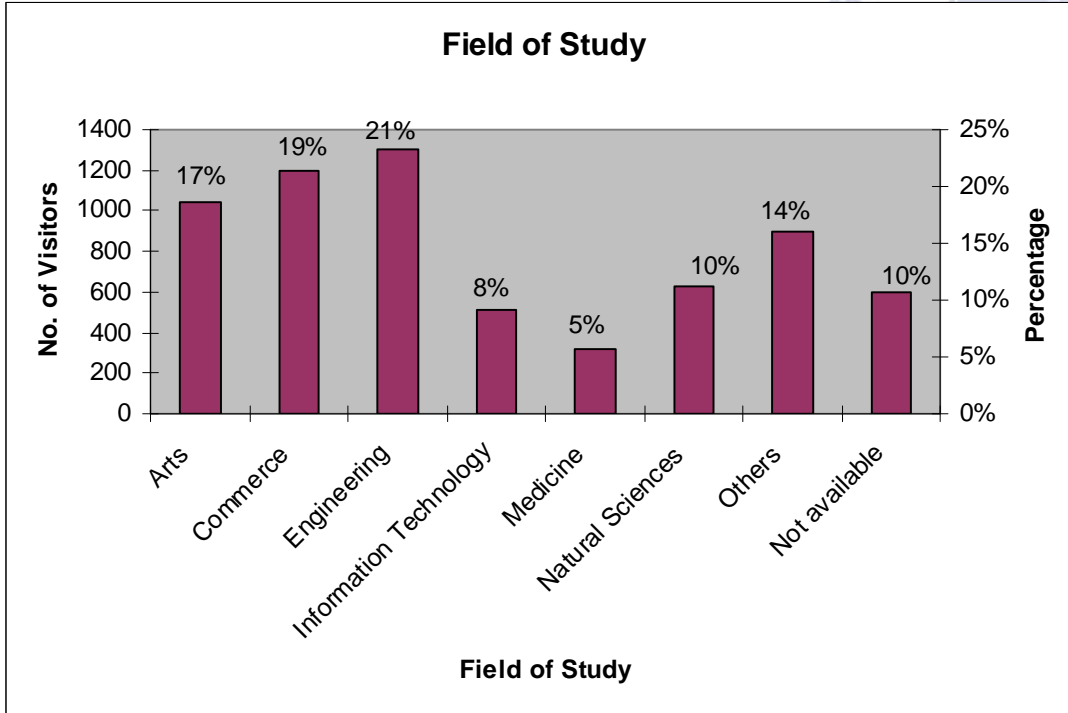

In order to assess visitor's profiles, questionnaires were distributed during the event. The survey results are as follows:

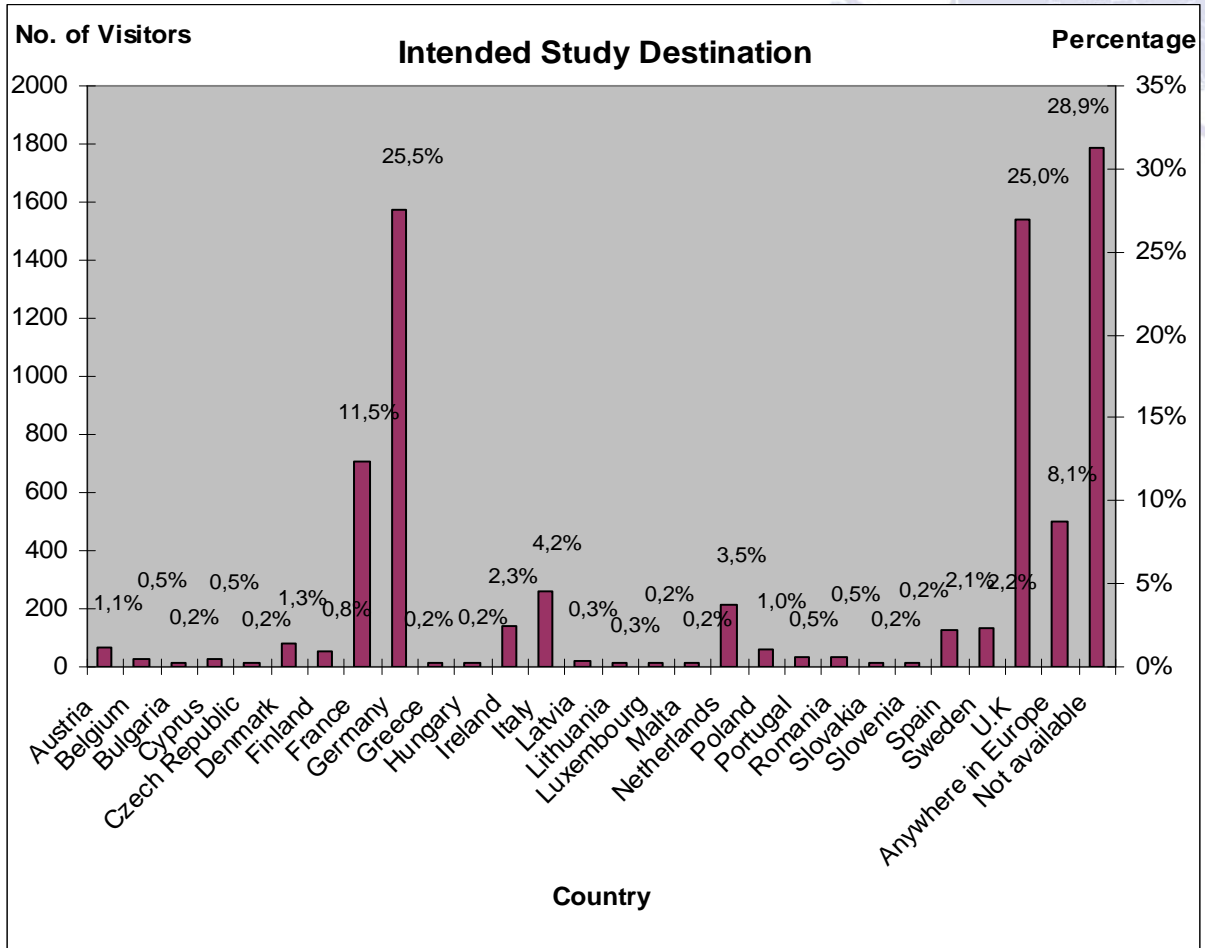

More than half of the visitors were students between 21 and 25 years old intending to study a Master degree in Europe. Most of them were studying engineering or commerce. The main European study destinations are UK, Germany and France.

Please find below some of the statistics about the visitors:
